

HYDRAULIC OIL LOSS LOG

Building/Property:	State -City ID.#:
Contract #:	Equipment #

For systems where the part of cylinder and/or piping is not exposed for visible inspection, a written record shall be kept of the quantity of hydraulic fluid added to the system and emptied from leakage collection containers and pans. The written record shall be kept in the machine room. When the quantity of hydraulic fluid loss cannot be accounted for, the test specified in 8.11.3.2.1 and 8.11.3.2.2 shall be made per **ASME A17.1, Rule 8.6.5.7**

Note: A total capacity of 5 gallons of oil collection is permitted in the pit area.

[illegible]

Note -This chart must be updated each service visit – Show Zero If no appreciable change
The maintenance records shall be available per ASME A17.1 2000 Item 8.6.1.4.2

This is a permanent record- do not remove from Machine Room
